

*“Innovations for Sustainable Road Freight Transport”*

## Eco Performance Award 2022 Application Announcement

Europe’s prestigious award for sustainability in commercial road freight transport, the Eco Performance Award, is entering its 14th round. With this award, the jury honors innovative companies that have distinguished themselves by combining ecological, economic and social efforts (three dimensions of sustainability – details can be found on our [website](#)).

### Eco Performer Categories 2022

- Large Companies
- Small and Medium-Sized Enterprises (SME)
- Start-ups
- Transformer of the Year

### Participation Requirements

- For all categories: A clear relation to all three dimensions of sustainability as well as an obligatory relation to road freight transport (e.g., multimodal transport, value added services etc.) is mandatory. Participants must have an official office in Europe. The submitted concepts and projects must have been implemented in practice. The EPA 2022 sets a particular focus on digital support within the submitted concepts and projects.
- Categories Large Companies and SME: Disposition sovereignty over a truck fleet is mandatory.
- Category Start-ups: Start-ups may not be older than five years, must have highly innovative ideas and constant growth, but do not require disposition sovereignty over a fleet of trucks.
- Category Transformer of the Year: Rewards particularly sustainable transformation processes in road freight transport, also based on digital solutions, regardless of the size of the company. No dispatching sovereignty over a truck fleet is required.

### Benefits for Eco Performers

Use the award as a reference for the image of your company and gain a competitive advantage. Set an example for a responsible approach to the environment and society. Sustainability is a success and sympathy factor for your company. The exclusive seal identifies companies as pioneers for sustainable implementations in the European transport and logistics industry. Present your concepts to experts and network with other innovators in the industry.

### Sign up Today

Do you want to present your sustainable efforts to the experts and become an Eco Performer 2022? Then convince us with your initiative for more sustainability in the field of road freight transport and [register](#) today on our website. Eco Performers 2022 receive a high-quality trophy, a certificate, a seal, a PR campaign and the opportunity to present their concept to the experts at the Supply Chain Innovation Day 2022 (27.09.2022).

### Competition Process

Fill out the online form ([website](#)) for the short application by **15.12.2021**.

The jury evaluates the short applications and invites some of them to submit a full application by **31.01.2022**. If required, the jury offers coaching for this process.

The jury evaluates the full applications and selects the finalists (shortlist).

The finalists will present their initiative to the jury in **February 2022**, after which the jury will deliberate on the EPA 2022 winners.

The winners of the award will be honored at an exclusive award ceremony. All shortlisted candidates will be invited to this event in **March 2022**.

Visit our [website](#) for more information on how to become an Eco Performer and contact us for any question.
