

ECO PERFORMANCE AWARD 2023

Application Announcement

Europe's prestigious award for sustainability in commercial road freight transport, the Eco Performance Award, is entering its 15th round. With this award, the jury honors innovative companies that have distinguished themselves by combining ecological, economic and social efforts (three dimensions of sustainability - details can be found on our website).

ECO PERFORMER CATEGORIES 2023

- Large Companies
- Small and Medium-Sized Enterprises (SME)
- Start-ups
- Transformer of the Year

COMPETITION PROCESS

- 01** Fill out the online form (website) for the short application by 31.12.2022.
- 02** The jury evaluates the short applications and invites some of them to submit a full application by 28.02.2023. If required, the jury offers coaching for this process.
- 03** The jury evaluates the full applications and selects the shortlist candidates.
- 04** The shortlist candidates will present their initiative to the jury in April 2023, after which the jury will deliberate on the EPA 2023 finalists & winners.
- 05** The winners of the award will be honored at an exclusive award ceremony. All finalists will be invited to this event in May 2023.

BENEFITS FOR ECO PERFORMERS

Use the award as a reference for the image of your company and gain a competitive advantage. Set an example for a responsible approach to the environment and society. Sustainability is a success and sympathy factor for your company.

The exclusive seal identifies companies as pioneers for sustainable implementations in the European transport and logistics industry. Present your concepts to experts and network with other innovators in the industry.

SIGN UP TODAY

Do you want to present your sustainable efforts to the experts and become an Eco Performer 2023? Then convince us with your initiative for more sustainability in the field of road freight transport and register today on our website.

Eco Performers 2023 receive a high-quality trophy, a certificate, a seal, a PR campaign and the opportunity to present their concept to the experts at the Supply Chain Innovation Day 2023 (09.2023).

Visit our website for more information on how to become and Eco Performer and contact us for any question.

Mail eco_performance@unisg.ch

PARTICIPATION REQUIREMENTS

For all categories: A clear relation to all three dimensions of sustainability as well as an obligatory relation to road freight transport (e.g., multi-modal transport, value added services etc.) is mandatory. Participants must have an official site in Europe. The submitted concepts and projects must have been implemented in practice, at least as a pilot project.

Categories Large Companies and SME: Disposition sovereignty over a fleet is mandatory.

Category Start-ups: Start-ups may preferably not be older than five years, must have highly innovative ideas and a growth path, but do not require disposition sovereignty over a fleet.

Category Transformer of the Year: Rewards particularly sustainable transformation processes in road freight transport, also based on digital solutions, regardless of the size of the company. No dispatching sovereignty over a fleet is required.
