

"Innovations for Sustainable Road Freight Transport"

Eco Performance Award 2024 Call for applications

Europe's prestigious award for sustainability in commercial road freight transport, the Eco Performance Award, is entering the next round. In 2024, the jury will honour innovative companies with this award for the 16th time, which are particularly distinguished by the combination of ecological, economic and social efforts. Details can be found on the [website](#).

Eco Performer categories 2024

- Large companies
- Small and medium-sized enterprises (SMEs)
- Start-ups
- Digital innovation

Conditions of participation

- For all categories: Clear reference to the three dimensions of sustainability and mandatory reference to road freight transport (e.g. also multimodal transport, value-added services). Participants must have an official site in Europe. The concepts and projects submitted must have been implemented in practice at least as a pilot. The EPA places particular emphasis on digital support within the submitted concepts and projects.
- Categories **Large companies** and **SMEs**: Mandatory right of disposition over own means of transport.
- **Start-ups** category: Must not be older than five years, must have highly innovative ideas and a growth trajectory, do not require control over their own fleet.
- **Digital Innovation** category: Honours particularly sustainable, digitally supported solutions and transformation processes. The category is explicitly aimed at software providers; no own fleet is required.

Advantages for Eco Performer

Use the award as a reference for the image of your company and gain a competitive advantage. Set an example for a responsible approach to the environment and society. Sustainability is a success and sympathy factor for your company. The exclusive seal identifies companies as pioneers for sustainable implementations in the European transport and logistics industry. Present your concepts to experts and network with other innovators in the industry.

Apply now

Do you want to present your sustainable efforts to the professional world and become an Eco Performer 2024? Then convince us with your initiative for more sustainability in road freight transport. Apply today via the website.

Eco Performer 2024 will receive a high-quality trophy, a certificate, a seal and a PR campaign.

Competition process

Complete the [online form](#) (website) for the short application by **31 May 2024**.

The jury will review the short applications and, on this basis, invite a full application by **31 August 2024**. If required, the jury will offer coaching for this process.

The jury assesses the full applications and selects the shortlisted candidates.

The shortlisted candidates will present their initiative to the jury in **October 2024**, after which the jury will deliberate on the finalists & winners of the EPO 2024.

The winners will be honoured at an exclusive awards ceremony. All finalists will be invited to this event in **November 2024**.
